**Attestation for Ardo medical AG**

In its capacity of producer and distributor of lactation equipment, Ardo Medical AG is committed to the promotion of breast-feeding. The company provides solutions for breast-feeding problems and espouses a holistic and sustainable concept of breast-feeding.

The International Code of Marketing of Breast-milk Substitutes was adopted in 1981 to protect and promote breast-feeding. It covers breast-milk substitutes as well as feeding bottles and teats.

We herewith confirm that Ardo Medical as a globally active company adheres to the WHO-Code in a strict and uncompromising manner and does not advertise bottle teats.

Yours sincerely
